

Background

As a fast growing global charity, HIV/AIDS Alliance wanted to create a workspace that communicated their mission of a 'world in which people do not die of Aids'.

In order to move closer to their mission, they needed a more open environment, greater team sharing and a more flexible approach to meeting spaces.

How we delivered

Appointed initially as Project Managers to manage the internal relocation process and tender, Peldon Rose went on to create an office in which all employees sit in natural light around a central meeting suite.

The interior is full of joy and the quest for life and is a true representation of the brand communication.
