

Background

As an award winning Accountancy network, rated 5 in the World and 'Best Workplace 2008', BDO needed to create a client focused environment that set them apart from the pack.

How we delivered

In order to refurbish whilst BDO were in situ, we created a temporary reception and worked with BDO in order to assist in the creation of short term meeting facilities both on and off site.

A sophisticated environment was created with soft lighting, specialist timbers, leather wall panelling and a dramatic steel and glass staircase winding through the building.

The completed environment is confident, peaceful, professional and grounding radically transformed a tired 1970's building.
